

Parent Portal – Weekly Progress Report Option

The Aeries.net Parent Portal now has the ability for parents to sign up for weekly progress report emails. These emails include current grades and recent gradebook activity for the student.

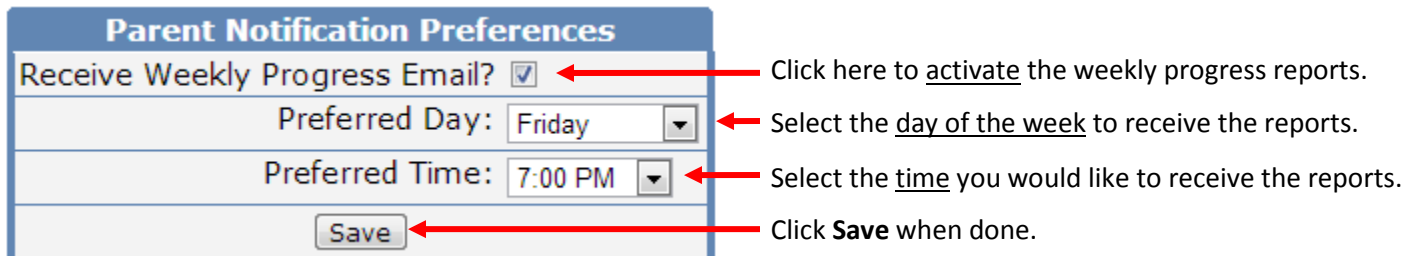

To subscribe to the weekly progress reports you would sign into your portal account and click on the **Options** menu.

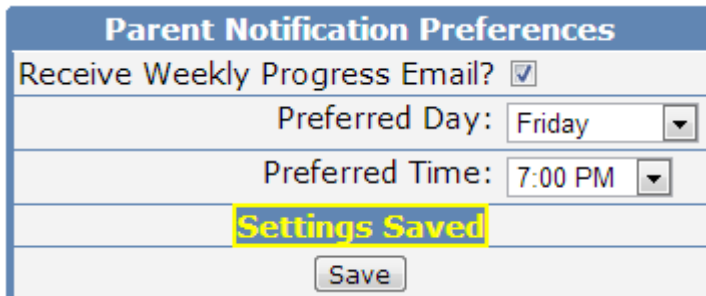

On the **Options** menu, click on **Parent Notification Preferences**.

You will need to select three settings on the **Parent Notification Preferences** screen.

You should then see a **Settings Saved** message.

Once you have saved your settings you can exit this screen by click on the navigation menu along the top.

You can return to the **Parent Notification Preferences** screen at anytime and cancel the subscription or change the day and time.
